

# Matlab code for phase retrieval with random phase illumination

Wenjing Liao and Albert Fannjiang

March 7, 2014

## 1 Functions

1. **Main:** the main function where images, random phase/uniform illuminations and Fourier intensity measurements are generated.
2. **HIOER:** the function of realizing Hybrid Input Output (HIO) followed by Error Reduction (ER).
3. **ER:** the function of realizing pure ER.
