ESP Quiz 1 (Kouba)

Please PRINT your name here: ________________________________

This quiz is due next Tuesday at the beginning of the ESP class.

1.) (10 pts.) On separate two-dimensional graphs sketch the $xz$-, $yz$-, and $xy$-traces for $z = x^2 - y^2$.

2.) (10 pts.) In the $xy$-plane sketch a level curve for $z = x^2 + 4y^2$ using $z = 16$.

3.) (10 pts.) Determine and plot the domain for $f(x, y) = \sqrt{9 - x^2 - y^2}$ in the $xy$-plane.
4.) (10 pts.) Sketch the graph of $x^2 + y^2 = z^2 - 1$ in three dimensional space.

5.) (10 pts.) The two-dimensional graph of $z = y^3 + 2$ is rotated about the $z$-axis to form a surface in three-dimensional space. Determine an equation for this surface.
