

Dr. D. A. Kouba
office : 3135 MSB
office phone : (530) 754-0469
e-mail: kouba@math.ucdavis.edu

My Office Hours : Variable (announced in class or sent via e-mail) or by appointment.

TA Office Hours : See my Math 16B Homepage for the link to the Math 16ABC Calculus Room Location, Days, and Times

Math 16B (Section 002), CRN # 40720, Winter 2019, 3 credits, 2:10-3 pm MWF in 212 Veihmeyer

Math 16B Homepage : <http://www.math.ucdavis.edu/~kouba/Math16B.html>

Course grade based on the following :

Exam 1 (Monday, January 28, 2019)	100 pts.
Exam 2 (Friday, February 22, 2019)	100 pts.
Exam 3 (Monday, March 11, 2019)	100 pts.
Final Exam (Thursday, March 21, 2019, 8-10 a.m. in 212 Veihmeyer)	200 pts.
Homework (See below)	0 pts.
<hr/>	
Total points	500 pts.

Homework assignments, homework solutions, discussion sheets, supplementary class handouts, exam information, exam solutions, and more can be found at the Math 16B homepage. Please become familiar with the resources that are available to you there as soon as possible.

Homework will be assigned daily, but will not be collected. *It will be your responsibility to do homework regularly and ask for help when you need it.*

No make-up exams are given. A missed exam is zero points.

Generally speaking my office hours are an opportunity for you to ask questions and work on problems together with other students. Candy will be provided at no cost.

Wednesday, January 23, 2019, is the last day to ADD the course.

Monday, February 4, 2019, is the last day to DROP the course.

Supplementary on-line calculus resources can be found at: <http://www.calculus.org>

Additional calculus workshops and tutoring are offered by the Student Academic Success Center (SASC) in Dutton Hall. Please contact SASC for specific information.

I will post problem sets and solutions for our Math 16B class from the following text:

TEXT: CALCULUS, An Applied Approach (7th edition) by Larson and Edwards

Please note that these are the following choices for you to get text/content material for the course:

1. Use ANY edition (older or newer) of the hardcover textbook.
2. Use a digital version of the textbook.
3. Use no textbook at all and rely on class notes or use of a classmate's textbook.

On the occasion that you might miss class and need class notes or some other way to learn the class material, you should do the following. Get class notes from a trusted classmate, see one of our TA's, or go to the Calculus Room and ask for assistance there. I will not be providing you with any class notes or make-up lectures on those days that you do not attend class.

I will NOT be using Inclusive Access, WebWork, or WebAssign for the course.
