FRIENDLY ADVICE FROM KOUBA -- I don't mind if you help each other on the Take-Home Quizzes. Please do write up your own solutions, and do not copy solutions from one another. However, I wasn't born yesterday, so I know a few of you may be already thinking about having skilled friends do all of your Take-Home Quizzes to guarantee a maximum grade for this portion of your grade. I can't stop you, but I will say this. If you aren't learning the Math 21D material through your own hard work and practice, you will likely fail the Proctored Final Exam. I'm just sayin'.
