

Name _____

Exam ID: _____

MAT21D Written Assignment
Due Wednesday, 2/29

Read, Reflect, and React (or Respond) Prompt #6

Now that the second midterm is coming up (Friday 3/2), it is time to think about what skills you need to be proficient at to do well on the exam. While studying for an exam, I would always guess what questions were going to be on the exam based on what the professor focused on in class, homework, and practice exam. I would like you to try this by responding to the following:

1. Build a list of the eight problems that could be on the second midterm. For example, one of the problems could be 'Computing Arc Length'. Also, copies of problem types are allowed like '8 line integral problems'.
